

The Women's Leadership Alliance's

# Woman-to-Woman Advisor Mentorship Program

*Mentorships empowering women in the financial advising profession to build thriving and fulfilling careers*

The WLA Mentorship Program provides a facilitated professional development experience for women advisors featuring one-on-one mentoring from a successful and supportive woman in the advising profession. This six-month program guides the mentorship experience to provide mentors with a proven framework to support mentees, and to assist mentees in clarifying and committing to their goals. The program is firm-agnostic and is part of the larger WLA Ambassador community of advisors and allies committed to advancing women in financial advising.

## Who is a WLA Mentee?

She is a financial advisor ready to challenge herself to grow personally and professionally and who values the perspective and experience of other women in the financial advising profession. A WLA mentee values the opportunity for positive accountability towards fulfilling her personal vision of success, and is excited to be a part of a supportive community of women empowering one another.

## Who is a WLA Mentor?

She is an experienced financial advisor who understands the valuable contribution that women bring to this profession. Her years of experience and her business background may vary, but she has learned a lot about successfully navigating the advising profession. Above all, a WLA mentor is passionate about positively influencing the life and career of another woman in the financial advising profession.
